Corrections to results or other comments to John Driscoll please

Tony Blackwell's second consecutive victory in the main race; Malcolm Plant's third year as runner-up; Glen Grant's nth time in the first six – Will things change next year?

Leo Carroll's third consecutive victory in the veteran category - will he do it again or will some new "young" vets emerge to challenge Leo's and Wirral AC's supremacy in this event?

We regret that the men and ladies were unable to run on the City Walls as in previous years – but at least we were back on the Race Course itself for the first time in four years after a lot of .hard work behind the scenes over the past 18 months particularly by this year's Mayor of Chester; Councillor E R Lowe.

Next year we hope to settle down (weather permitting) to a fixed course for years to come of 2¼ laps of the Race Course + lap of the City Walls and finish in the same place as this year – estimated distance 4.5 miles. Ladies will do ¼ lap of race course + lap of City Walls for 2.3 miles. (That's what we had intended for this year!)

A record entry this year of 332 seniors and 114 vets, but only 10 more finishers (12 more hardy vets, 2 fewer seniors) than last year. At least 30 appeared to check in for numbers then either did not start or did not finish.

A record entry also for the ladies race, but -5 fewer finishers than last year -a pleasing increase in the number of inters taking part.

Entries for the young athletes races much the same as last year – but fewer finishers except in the Youths race
